

INDUSTRIAL VISIT REPORT

Vidarbha youth Welfare Society's, "Institute of Pharmacy and Research, Badnera" organized Industrial visit for D. Pharm second Yr students at Leben Life Science Pvt Ltd, Akola on 24 November 2022. Around 38 students and faculty actively participated in the visit which was successfully coordinated by Ms. N. S. Gallani, Ms. A. G. Sinhe and Mr. A. S. Raut

We started our journey at 6.15 A. M. from Badnera and reached our destination at 9.30 A. M. We were received by Ms. Sakshi HR officer, Leben Lifescience, Akola. The visit started with a presentation by Mr. Taher Sayyed, QA Manager. He briefly explained the company organogram, infrastructure and current growth status. We were then taken to visit the various departments in the industry. We were taken to the gowning rooms and were given aprons, masks and cap to cover as per proper gowning procedure instructed in the Industry.

We firstly visited the ADRL analytical drug development research lab. We visited the wet laboratory there and saw the actual working of various instruments such as dissolution apparatus, Gas Chromatography, HPLC etc. Thereafter we visited the Production and Packaging unit. Students had a chance to see the working of different machines such as double cone blender, coating machine etc. They were explained the primary and secondary packaging of the finished products.

The visit ended by expressing our sincere gratitude to the HR officer Ms Sakshi Kulkarni for making this visit remarkable. Students were enriched by the practical exposure to the actual working of Pharmaceutical Industry. At last we clicked a group Photograph and moved out of the industry.
