

# Hospital Visit Report

A Visit to Primary Health Care Centre, Anjangaon Bari, Amravati was arranged for the students of D. Pharm on 12<sup>th</sup> December 2024. The visit to the Primary Health Care Centre aimed to provide students with practical exposure to a healthcare environment and enhance their understanding of hospital operations. Around 65 Students and teaching faculty of the institute Participated in the visit.

On arrival at the Primary Health Care Centre, the group was warmly welcomed by hospital staff. The Visit commenced with the teaching faculty presenting a bouquet of flowers to the hospital administrator Dr. Rinkunjay Keche, in appreciation of the opportunity to learn and interact. The Visit started at 1:00 pm. Students were introduced to different departments of the hospital, A closer look at medication storage and inventory management was provided, emphasizing the importance of proper storage conditions for pharmaceuticals, detailed presentation was given on the role of Hospital Pharmacy, including medication dispensing, patient safety, and collaboration with healthcare providers. The students received an informative session on communicable diseases, specifically focusing on Tuberculosis. The staff provided comprehensive insights into the disease's epidemiology, prevention Strategies and treatment protocols. Through the visit, students were encouraged to engage actively, Students raised various queries, which were addressed by the concerned staff, fostering an interactive learning atmosphere. The visit to the Primary Health Care Centre was successful in providing D. Pharm students with valuable insights into hospital processes and the practical roles of healthcare professionals.

At the end of the visit, the delegation of college thanked the employees of Primary Health Care Centre on the behalf of Principal and all the employees for their cooperation and acceptance of the visit.
